

I'm proud to call Sebastopol home and am committed to protecting our unique, small-town character.

I'll work hard to ensure we have the best public safety infrastructure possible so that our town is safe and prepared during an emergency. I'll work to ensure the fire department has the support they need.

As a downtown business owner, I'll use my business experience, coupled with being a past Director of the Sebastopol Chamber of Commerce and Sebastopol Downtown Association to listen- support – and work with our small businesses to create a vibrant and walkable downtown.

As a working mom, I also want to ensure children, seniors, and families have access to well-maintained parks, and public spaces. Through my service as past Chair of the Sebastopol Community Cultural Center Board, I'll collaborate with residents and stakeholders to enhance art and recreational opportunities for all our residents.

I'm passionate about serving and improving our community. I have diverse experience – as a dedicated volunteer, certified Project Management Professional, businessperson, and Executive Director of a natural products advocacy group. I'll utilize my experience for the betterment of Sebastopol as we address continued cost-of-living, safety, environmental, economic, and social-cultural issues.

I ask for your vote.
